

Important Uniform Care Notice

As a member of a CVHAA Lady Patriots Soccer team you are assigned and entrusted with the care of your uniforms.

- Please read carefully -

It is very important that great care be given the components of your uniform sets:

- ~ Uniforms must be washed in **warm water** by themselves on a delicate cycle.
- ~ Please do not use liquid fabric softener in the wash cycle as this causes the lettering and numbers to crack and peel.
- ~ Please be sure to wash the uniform separately, as washing the uniform with other clothing items will tend to prick the material.
- ~ If you have an alternate jersey/uniform (white and red sets), please wash separately - do not wash the red uniform along with the white one.
- ~ Lastly, do not dry the uniforms in the dryer or iron them. The dryer will shrink the garment, and the adherence of the lettering and numbers may be affected. After the uniforms are washed, please dry them by laying them flat or hanging them up.

CVHAA has the right to retain the uniform deposit for any articles that are lost or damaged (not including reasonable wear & tear). These uniforms are a reflection of our team and organization so please take excellent care of them.

Thank you - and Best Wishes for a winning season!
